50 ft 15m Plenum-Rated Coax High Resolution Monitor / Projector VGA Cable - HD15 to HD15 M/M

StarTech ID: MXT101PMM50

The MXT101PMM50 15m plenum-rated VGA cable delivers a high resolution (1920X1200 and above) VGA connection to your monitor or projector, and can be installed through air plenums, ducts, walls, conduits, ceilings, or anywhere else a CMP/FT6 fire rating is required.

This durably constructed coaxial cable features two HD15 (male) connectors and eliminates the picture "ghosting" and fuzzy images that are inherent to non-coaxial cables, while providing superior EMI interference protection by using ferrite cores near the connector ends.

This 50-foot plenum-rated VGA cable is backed by StarTech.com’s Lifetime Warranty.

Applications

- VGA display installations where cable needs to be run through air ducts and plenums, where CMP fire rating is required (educational or commercial installations, etc.)
- Connect a high resolution display to a Desktop PC or video switch, up to 50 feet away
